Profile

Defensive-minded midfielder with strong positional discipline, physical presence, and calm ball circulation. Operates primarily as a single or double-pivot #6, protecting the back line and supporting structured build-up play. Shows maturity beyond his age.

Strengths

- Strong defensive positioning and awareness
- Consistent ball recovery and duel success
- Secure short-to-medium range passing
- Physical profile suited to Scandinavian football
- Composed under pressure

Risks / Considerations

- Limited final-third output (goals/assists)
- Creative passing still developing
- Another young profile within the squad

Overall Recommendation

With Silas Andersen linked away, there may be a need to reinforce the #6 role. Moro offers immediate depth with long-term potential, and Häcken's recent business with Horsens (Sanders Nagbo) supports feasibility and integration.
